SOLUTIONS AND INNOVATIVE IDEAS FOR HEALTHCARE FOOD SERVICE

SOLUTIONS FOR THE HYDRATION OF FRAGILE INDIVIDUALS: Easy Drink

Particularly concerned with satisfying the customers' needs, Valgarda has recently developed the automatic system for the supply of Easy Drink cold beverages, conceived for the hydration of individuals with dysphagia and specific dietary needs.

Easy Drink supply system allows to choose:

- Thickened liquids (several flavours)

Easy Drink supplies up to four product types (each with three different densities to choose from), allowing to personalize quantities and consistency according to the guests' nutritional needs.

Advantages

- ☒ Standardization of the preparation of the drink, thus daily granting the same product thickness
- +/- Modifiable consistency
- ☑ Flexibility in preparation (single or multi portion)

Easy Drink supply system

Easy Drink proposes solutions to meet all tastes. Here are some recipes:
